In 2005, the full retirement age is 65 and 6 months. The full retirement age will increase gradually each year until it reaches age 67 for people born in 1960 or later.

Disability beneficiaries' earnings limits: If you work while receiving disability benefits you must tell us about your earnings no matter how little you earn. You may have unlimited earnings during a trial work period of up to nine months (not necessarily in a row) and still receive full benefits. Once you have completed your nine-month trial work period, we will determine if you are still entitled to disability benefits. You also may be eligible for other work incentives to help you make the transition back to work.
